

*Congratulations! Tyromer is now ISO 9001:2015 certified.*

Tyromer recently received ISO 9001:2015 certification for Quality Management Systems. The Company has demonstrated its ability to consistently provide product and service that meet customer and applicable statutory and regulatory requirements.

Further, ISO aims to enhance customer satisfaction through the effective application of the system, including processes for improvement of the system and the assurance of conformity to customer and applicable statutory and regulatory requirements.

*About Tyromer: Tyromer Inc. uses a supercritical carbon dioxide assisted reactive extrusion technology invented by Professor Costas Tzoganakis of the University of Waterloo to provide a non-chemical industrial process to convert scrap tire rubber into TDP (Tire-Derived Polymer) for reuse in tires.*
